VIRGO (Aug. 22-Sep 22) — You feel lighter on your feet now that vivacious Gemini has moved on. You are no longer burdened with something heavy and a world of possibilities might become the easy target for your negativity.

CRAPANZO — (Dec.22-Jan.19) — You're no longer doing what is expected of you. Your work is no longer likely to be your highest priority. Your natural magnetic force is growing, but your state of mind is in constant movement. You might not know what is best for you at the moment, but you are no longer under the influence of someone who was not in your best interest.

Outlook Horoscope

Aries (Mar.22-Apr.20)

You're unsecured of what you want now that Mars has moved to Libra. You may feel like you have your freedom. Even if your thoughts are hard to communicate, you will likely share them with anyone today, especially if you believe that you have to make a choice in your life. Keep your suspicions quiet if you are getting hurt, but they also prevent you from making things easier.

Libra (Sep.23-Oct.22)

Your vision of the future begins to take shape when Mercury moves into Libra. You are about to realize your own creativity in a new way. This will give you the tools to face the events of your life.

Taurus (Apr.20-May 21)

You can maintain your direction, but you also accept the importance of adapting to the rules of the game. Sometimes, it's better to let things happen without a plan because you will have a clear view of your control system. Your efforts may not be enough to achieve your goals, but they will be an important step towards improvement.

Sagittarius (Nov.22-Dec.21)

You are more than ready to give new energy to your passion. This is the time to take charge of your life. You are in a great position to make something of your life. You can also have a clear vision of your goal if you spend too much time thinking about it. You can also start things easier if you aim to make more efficient than the others.
