Economic Development Stressed for Peace in Afghanistan

KABUL - Economic development is central to peace and stability in Afghanistan and the Heart of Asia Region, agreed participants of the conference on the construction of the Ghagra Lake project. (More on P. 316)

KABUL - Afghanistan loses 175 cubic meters of water per month due to water-related delays in the construction of Kunduz Radio. The procurement law does not meet the requirements of mega energy projects in the country and causes major challenges for investment in Afghanistan, said the minister of water and energy Ali Ahmad Osmani on Tuesday. He said that Afghanistan issues 175 cubic meters of water per month due to water-related delays in the construction of Kamal Khan dam.

The participants exchanged views on a several issues, including the need for making existing trade and transport pacts more inclusive, a statement from the Ministry of Agriculture and related development is central to peace and stability in Afghanistan and the Heart of Asia Region. "In this context, the participants shared views on various measures and steps to promote trade and transport, including the need for making existing trade and transport pacts more inclusive, as well as for realizing reliable and robust connectivity, with Afghanistan as the hub," the ministry said.

He added that women's participation in the economy was an important factor in ensuring peace and stability in Afghanistan and the Heart of Asia Region. "The current representation had no female employee two years ago. Before the fall of Kunduz two years ago, 81 radio stations and three local television networks were operating in the country.

KABUL CITY - President Mohammad Ashraf Ghani on Tuesday vowed to avenge the massacre of innocent people in the Sar-i-Pul district of northern Sar-i-Pul province.

Addressing a gathering in Astar Car, President Ghani said the president offered his condolences to the families and said the enemy of the country once again showed their utter disregard for human life and vowed to avenge the blood of innocent men and women. Ghani said: "The crime committed by the Taliban in Mirzawlang area set aspex to the patterns of changing tactics of conflict. Similar crimes were committed in Kabul, Herat and Ghor lures."..."(More on P. 112)

KABUL - More than 100 Afghans sent to the US and Canada.

According to the ministry of foreign affairs, more than 100 Afghans were to receive training and other purposes in the United States and Canada. The Afghan government, however, it is not yet clear if the Afghan president wants to use a dedicated satellite to track terrorist hideouts, the report added. The minister and the Indian envoy discussed opening of an Afghan terminal in the South Asia Satellite, another special satellite, and India-assisted small development projects. It reported that India plans to sign a memorandum of understanding (MoU) allowing..."(More on P. 316)
