in Afghanistan to worsen, a serious problem that could not be resolved in a short time. Yamamoto advised the government not to use violence against insurgents. Instead it should also consider the opinions of the people in resolving public problems and improving the security situation, he suggested.

The top UN diplomat supported the peace talks initiated by the Afghan government but said the UN also backed the Afghan government’s fair elections program. Hemmed in by the situation, the Afghan government should be supported by all, he said.

Faryab provincial council’s representing members expressed concern over the security situation in their province, particularly the security situation in Faryab and the casualties of civilians and soldiers. He expressed satisfaction with the central government’s implementation of its security strategy, he said. However, he said, about 7,000 internally displaced families were living in camps in the province. The security sector also faces a serious threat and situation, he believed. Therefore, the Ministry of Interior and the security centre had been completed but it was still lacked personnel, the government expert said.

Afghanistan Civil Society Forum (ACP) member, Dr. Tariq Zardar said, the security situation in the province of Maimana-Mazar-i-Sharif was currently under the Taliban control. Except for Sardar Bibi, who was under military control, he claimed.

He asked the government’s secretaries’ group to take serious measures. The government leaders to fight honest terror, develop infrastructure and boost security on the Maimana-Mazar-i-Sharif highway to instill a sense of security among the people.

The trip of Tadamichi Yamamoto to Faryab province came after the government was busy fighting against militants in several areas of the country. The Taliban have also been under military control, he claimed.

According to the plan, the world’s largest economy, the US will spend about $93.7 billion on military expenditure, an amount which will be further increased by making a new strategy, he concluded. (Pajhwok)

3) Privatisation of...-

In some contracts with the US military, in which Afghan companies are involved, the company wants around 5,000 private security guards. However, the US military itself, which has to be used in the fight against the militants in Afghanistan. These companies have been in a contract-based budget would be received from Washington. This is the same issue that earlier started in Afghanistan and has caused the government to lose control, said Qader Shah, spokesman for the National Security Council. Some domestic and foreign experts pointed out that new tactics to fight militants. He added that the viewpoint of US security contractors about Afghanistan was their own self-interest that had nothing to do with the government's policy.

He said the issue of conflict leadership by Blackwater had not been discussed with the Afghan government. The new strategy for Afghanistan was therefore not discussed.

“We have a security cooperation agreement with the US. Military requirements of Afghan security cooperation are discussed within the framework of this agreement,” the spokesperson described that security and political cooperation be- tween the US and Afghanistan is the key policy.

According to the US media, America’s ambassador to Afghanistan said, “We produce from ten billions of dollars to help Afghanistan. The US has a long-term interest in strengthening the security and defense of the country. The US will continue to stay in Afghanistan to end the war.”

He said Sweden had been supporting the work of the local police in 228 villages of different provinces in Afghanistan. “We have provided the Swedish aid would be spent on the improvement of the security situation in northern and provincial centers, including health and education.”

The security officials were instructed to take immediate steps to bring the situation under the control in Sar-e-Pul and Faryab provinces, Arge Palace, said adding that the security forces were also given to security institutions to sup- port the insurgents in Mirza Amlang area in Saray district of Sar-e-Pul province besides taking immediate steps to bring the situation under control. Other instructions including dispatch of security forces to protected residents in the area were also given to the security institutions during the meeting. (Pajhwok)

3) Optimism Surveys-

According to the survey, the government’s efforts in Afghan society and electricity are the main causes of the stability of the country. There are a lot of problems and be- cause the security situation in the country is not in much difference between the figures of last year as compared to the current year, and the government has not done anything with these problems.

The power supply is not stable and we had to work on power supply. And the people are afraid that our machinery may burn in the night. At last, we, the workers at one of the factories, officials at the ACCI said that the lack of bilateral trade agreements, transit and trade agreements with a number of countries showed down trade with these countries.

So the government has access to global transport routes, the ACCI said. Manufacturing exporting experiences say that power shortages are a major challenge.

According to the survey, manufacturing exporting experiences say that power shortages are a major challenge.

No one immediately claimed responsibility for the attack. “This was a suicide attack against the Islamic Security forces in front of Taleqan. There were 30 casualties,” the provincial police said.

The Islamic State group has been active in Afghanistan and across the region, particularly in the eastern part of the country, as well as in other parts of the region. The Islamic State group has been responsible for a number of attacks in Afghanistan, including suicide bomb attacks and shootings.

The Islamic State group has also been active in other parts of the region, particularly in the eastern part of the country, as well as in other parts of the region. The Islamic State group has been responsible for a number of attacks in Afghanistan, including suicide bomb attacks and shootings.
