Abdullah Thanks Terror Financing Resources Choked

Abdullah thanked the UN Office of Counter-Terrorism for its anti-terror efforts and support to the Afghan government.

KABUL - Afghanistan's terror-related operations helped derive a large portion of resources to terrorists from the southern city of Ghazni over the past two days, read a statement from the US Forces-Afghanistan on Tuesday.

“Well we observed was the re-routing Taliban and the more vulnerable surrounding districts, which Afghan forces are reinforcing,” US forces spokesman Lt. Col. Martin O'Donnell was quoted as saying in the statement.

However, the Taliban hid amongst the Afghan populace pushed a threat to civilian population, who were terrorised and harassed. He said the Taliban falsely and repeatedly claimed they did not target civilians, but in fact they executed innocents, destroyed homes, burned a market and created the conditions for a potential humanitarian crisis with the attack.

“Clearly the Taliban have paid no heed to the calls of the Afghan people…” (More on P4, 6)

Khattak Assails Pakistan's Policy Toward Afghanistan

KABUL – Araini National Party leader Araini Khattak has asked the Pakistan government to explain how its citizens have been killed in clashes in southern Ghazni province.

On Friday, the Taliban stormed Ghazni City and captured many areas, but Afghan defense officials said the security forces had beaten back the onslaught.

Around 500 people, including security forces and civilians, have suffered casualties during the four-day clashes in the strategic city.

In a tweet, Khattak demanded a clarification of Pakistan's policy toward Afghanistan. He wondered if the previous tactics were still being implemented.

“Pakistan needs to explain reports about the dead bodies of Pakistanis coming in from the war in Ghazni and Paktia fighters getting injured in them. It is a repetition of the Jalalabad faisos in 1989. Pakistan's Afghan Policy is an unmistakable disaster,” he remarked.
