Afghan Central Bank’s Ajmal Ahmadi Under Fire for Blocking Critics on Twitter

KABUL - Afghanistan’s central bank’s acting governor, Ajmal Ahmadi, has come under fire for blocking his critics on Twitter. Criticism on Ahmadi mounted in recent days over reports that his salary was $500 per day at the time when he was an advisor to the minister of finance. Ahmadi has also faced criticism over his meeting in the bank with a person suspected of embezzlement and also electricity outage for several hours in the bank. “Government officials should be accountable to people and answer to questions with patience,” said Ahmadullah Nabi, head of Access to Information Commission. “No government official has the right to misuse their position.” Blocking users on Twitter or other networks where government officials are criticized is not good,” he said.

Afghanistan House Speaker Obtains Cyprus ‘Golden Passport’ for $2.5M

KABUL - Afghanistan’s Lower House speaker Mlb Rahmani bought Cyprus “golden passport” for himself and his family, according to a leaked confidential document obtained by Al Jazeera’s Investigative Unit. Rahmani, including his wife and three daughters, are among dozens of current and former public officials from a number of countries, including Afghanistan, who bought “golden passports” from Cyprus between 2017 and 2019, the report said. Each applicant is required to turn-up approximately $2.5m investment to qualify for the passport, according to Al Jazeera. Rahmani has become a highly successful businessman more recently, “handing 60% to 70% of profits to the Afghan government and the UN,” it added.

AICC Accuses Govt of Ignoring Trade, Investment Problems

KABUL - On Monday, the Afghanistan International Chamber of Commerce (AICC) accused the government of failing to solve the country’s trade and investment problems. Officials say the mounting lack of security is a challenge to the country’s private sector, along with the government’s lack of planning to solve problems faced by Afghan businessmen in Pakistan. AICC members claim these are the causes for the decline of investment in the country. Business people speaking of the launch of “Incorporation 2020” in Afghanistan—the latest version of an international standard of business terms put out by the International Chamber of Commerce—were critical of the Afghan government’s handling of the economic situation. “Right now, thousands of trucks carrying containers of commercial goods to both sides of Torkham have been stopped, and the cost of goods have increased, but the government has turned a...” (More on P4...)

More High-Ranking Officials Face Prosecution over COVID-19 Funding Fraud

KABUL - Two provincial governors and two former governors were on Tuesday referred to the Attorney General’s Office on suspicion of embezzlement of COVID-19 funds, sources have confirmed. The fraud suspects are Wandal Governor Abdul Yamin Masuzaifardilu, Badakhshan Governor Zakhtar Saeda, former Nuristan governor Hazr Abdul Qayum and Nangarhar Governor Abdul Qayum Rahimi. This comes after former Public Health Director, Farzadullah Farzad, and a number of current and former health officials were referred to the AGO on suspicion of misuse of authority and embezzlement of COVID-19 funds on the one hand, and the funding fraud committed by the Ministry of Finance on the other. (More on P6...)

India to Renovate Kabul’s Bala Hisaar Fortress

KABUL - India has pledged to finance renovation of Bala Hisaar, an ancient fortress built around the 5th century in Kabul. A memorandum of understanding (MoU) in this regard was signed between Indian Ambassador Vinay Kumar and the acting representative of Agha Khan Development Network in the presence of President Ashraf Ghani on Monday. Bala Hisaar saw some of the worst fighting between Afghan forces and the invading British during the two Anglo-Afghan wars in the 19th century. The Indian envoy said that his country wants a peaceful, prosperous and developed Afghanistan and expressed hope that the Bala Hisaar project ends successfully. Ghani said that historical structures reflect a history full of prides, and their renovation not only shows relations with the past, but also carries the greatness of the nation to future nations. He said that Bala Hisaar is not just a symbol, but a historical representation that expresses people’s struggles and abilities to carry out great works. The president thanked India for its assistance to Afghanistan, saying it would help defend republic and other values which bring the two countries closer. (TIV NEWS)

Almond Price Down 32pc, Yield 15pc in Samangan

Almond growers in northern Samangan province have experienced a decrease of 32 percent in price on average as the spread of the Covid-19 pandemic in the province.

Rashid said last year's seven kilogram of almonds was sold for $1,000 to 6,000 afghani. These almonds included different types such as Sattar Baei, Khajesarwar, Bokhara, Qambari, Tvagai, and Bakhsh. According to Naqibullah, the issue behind the drop in almond prices in the province was lack of foreign buyers. Rashid said the recalled in the past 60 percent of the province's almonds were exported to Indonesia, Turkey, Pakistan, and the United Arab Emirates (UAE) asTree production. Rashid said that last year he bought almonds from local farmers in Samangan and sold them to foreign and domestic traders in Kabul, but this year he transferred tons of almonds to Samangan for processing due to the logistic problems.

According to Rashid, the Afghan government intended to reduce in decline in almond in the province this year, compared to the previous year. The almond yield in the province was estimated to reach 2,000 tons this year while last year it was estimated to reach 3,907 tons, he added. Rashid said that the drop in almond is a result of a plant disease (shabash) in almonds in the reduced vegetation this year in the province. Almond trees in Samangan cover about 5,000 hectares of land in the capital and in Hazrat Sultan and Kush Cham khutan districts of the province (Pajhwok News).

Baghlan Clashes Lead to Power Outage

BAGHLAN - The Afghan Security Forces exchanged heavy fire with Taliban militants and imported 220 kW power line in the Baghlan province was cut off, due to security concerns. The company stated in a post Monday night, important line from Tajikistan is affected by these activities. According to the company, the technical teams are trying to reconnect the affected lines, as the security situation in the region is tense.

This, however, is not the first time in recent months, that balancing tactics, as battles between Afghan forces and the Taliban, have intensified against the opposition. The Taliban is the most affected area in terms of power shortages, reports suggested (Pajhwok News).

Taurus (Apr 20 - May 20)

Although you're weighing the facts, you're not ready to make up your mind. The harder it will be for you to make a decision, the more open and accepting you are of this matter. Try something you've never tried before. You're very persistent so things don't get boring. Variety is the spice of life.

Gemini (May 21 - June 20)

A talkative day for you today, Aquarius. You talk to everyone and find that long-time friends are mostly in your mind. Your sense of diplomacy combined with a little bit of tact is setting the stage for this to go very well. The audience is waiting around for you to speak. Don't share some of your secrets. Engage in witty conversation and remember that life is a funny thing.

Cancer (June 21 - July 20)

You've got some big plans for you today, Cancer. So set your course for a distant exotic place to do all these things. You're coming to a digital Omniscience now. You're not too interested in past events. You're ready to take a different path.

Leo (July 22 - Aug 21)

This could be a day for you today, Leo. You're feeling adventurous and are ready to step out of your comfort zone. You're ready to take on new challenges and try something new.

Virgo (Aug 22 - Sept 22)

You can probably sort out a few problems that you need to deal with. You're holding the right cards and now it's time to play them strategically.

Sagittarius (Nov 23 - Dec 21)

A very productive day for you today, Sagittarius. There are some tasks that you need to finish or complete. Things are changing quickly, and you need to be ready to change and adapt. Be aware of the fast-changing atmosphere around you and try to make the necessary internal adjustments. That will help you fit in better with the external environment. Don't lose change.

Cancer (June 21 - July 20)

A talkative day for you today, Aquarius. You talk to everyone and find that long-time friends are mostly in your mind. Your sense of diplomacy combined with a little bit of tact is setting the stage for this to go very well. The audience is waiting around for you to speak. Don't share some of your secrets. Engage in witty conversation and remember that life is a funny thing.
Sectarian Violence LOOMS LARGE in Muharram

Sectarian violence has been stoked by terrorist networks in Afghanistan and a number of individuals involved in shark wars killed on the ground of their sect and beliefs. The insurgents spill the blood of men and women to trigger sectarian strife on a large scale. Sect-based radio stations and sectarian tension are highly for profit for a society and a country. Whether the US-Pakistan mated Mujahideen would have been successful in their aim to involve India directly or indirectly in the Cold War? Or whether it is a red herring that the US-Pakistan mated Mujahideen was not interested in the Cold War due to their lack of knowledge and expertise?

Bringing Normalcy to Afghanistan & South Asia is West’s Responsibility

By: Bimal Prasad Mohapatra

A fghanistan has been in turmoil for last four and half decades. This unprecedented turmoil and civil war during a long period has so far claimed millions of lives. It is a reality that the Soviet Union’s invasions into Afghanistan in the late 1970s and early 1980s, and the subsequent US military intervention in 2001, have left Afghanistan in a state of chronic instability and conflict. Despite the withdrawal of foreign forces, Afghanistan remains mired in violence and political instability.

In this given situation, the present occupant of The White House, Mr. Donald Trump, now bidding for second term, in order to keep his existing term preceded by his predecessor, Mr. Barack Obama. This is not to suggest that Trump has a clear strategy for dealing with the situation in Afghanistan, but rather that he is more concerned with his own political survival than with achieving a peaceful resolution to the conflict.

The US military intervention in Afghanistan in 2001 was intended to root out terrorist networks, particularly al-Qaeda, which was responsible for the September 11, 2001, attacks on the United States. However, the war has become a quagmire, with the US and its allies facing significant challenges in achieving their objectives.

Whether the US-Pakistan mated Mujahideen would have been successful in involving India directly or indirectly in the Cold War? devices such as CT (computed tomography) or host PC software bugs. Tack, as well as human errors such as mistakes from malicious intelligence (AI) technique to profiteering government resources.

Jerusalem - Israeli researchers have developed a new artificial intelligence (AI) technique to protect medical devices from malicious attacks.

The new technique uses AI that can detect attacks from the PC to the physical components using a new architecture for the attack detection system.

In a dual-layer architecture for the protection of the medical devices, the team has included two types of anomaly instructions. The team successfully tested their so-called 2572-constant-trained-instructions.

The results show that the rules of the game have used to earn a lock on power theft and poisoning. Some medical devices from malicious attacks.
