Lack of Social Freedom
By Hujaltaj Zia

We have been longing for freedom vacuously. Freedom to ex- ercise our human capacities, to make our own decisions, to cross boundaries, to do what we want without the mood of being led and with the right to have a single nation that has the power to read; empty of moral values and responsibilities. We have realized to freedom, where we did not do only in reality but also want exercise a feeling that is distinct to guarantee a way to freedom. This philosophy is based on the idea that we are free as long as we overstep the people’s hole, his sight vividly wishing to walk as the same as all the people outside of them. The people walking there does not know exactly what is going on there. The prison guard籀ens with the idea that one time he sees this way, he says he sees many other side such as gangsters, kidnappers, murderers, robbers, liars, etc. day, he never notices the bleakness, bloodshed, and corruption. People, tyrannize him, threaten to do him to death, force him to do what they want. Doesn’t the person feel like returning to prison?

The present social disorders, political crisis and economic stagnation are some vital factors which occurred the social freedom and led the country on the verge of calumny. This problem has defeated the national- nation and its social fabric. Our social and political institutions have entirely crumpled and degenerated due to this turmoil. An ominous shadow covers the land. Indeed, the country is at a turning point. The decades of war and present instability caused a great hardship in Afghani- stan. Authorities have to leave our politique in condition. Therefore, it is believed that Afghan officials will have to be on their toes. The political existence of a majority culture or ideological support for a system of govern- ment is an absolute necessity for freedom. The situation in Afghanistan has deteriorated in the last decades of calm 1979, up to and during the rule of the Taliban between 1995 and 2001 when the US and coalition forces with the Northern Alliance took control of Afghanistan and the Taliban were finally overthrown. The US is now working to support the Afghan government and defend its power. The region is in its initial stage in the process of af- firming freedom for the nation. Afghanistan has long had a reputation through its history of being an ungovernable land of warring tribes where local power struggles have been in play for centuries, and which has never known the freedom of others and do not forget the legal boundaries. So, we are supposed to use our freedom in the frame of law other country. Besides using our rights, we are responsible to respect the rights of other country. In other words, there is a limitation for free- dom. Whenever we claim for liberty, we have to shoulder a series of responsibilities in the society. In other words, there is a limitation for free- dom.
