KABUL – Members of Wolesi Jirga see the Pakistan cooperation on Afghanistan’s peace process with more doubts saying international community’s assurance is needed on Afghanistan’s peace process or else Pakistan has been contrary to its commitments against Afghanistan peace process for the past several years.

A number of Members of Parliament (MOP) of Wolesi Jirga understand that Pakistan is the main factor of our NSF (National Self-Defense) mission.

First deputy of the house Zaher Qadir said, “former NDS chief should be questioned why he was obligated to resign from his position in such critical conditions, what was made him to do, the Afghanistan’s peace process should be guaranteed by the International community. Each time when President Ghani visits Pakistan there is negative impact of his trip, later the main reason.”

KARAL – Members of Wolesi Jirga in connection with the cooperation on Afghanistan’s peace process with Pakistan have doubts saying the international community’s assurance is needed on Afghanistan’s peace process or else Pakistan has been contrary to its commitments against Afghanistan peace process for the past several years.

A number of Members of Parliament (MOP) of Wolesi Jirga understand that Pakistan is the main factor of our NSF (National Self-Defense) mission.

First deputy of the house Zaher Qadir said, “former NDS chief should be questioned why he was obligated to resign from his position in such critical conditions, what was made him to do, the Afghanistan’s peace process should be guaranteed by the International community. Each time when President Ghani visits Pakistan there is negative impact of his trip, later the main reason.”

Int’l Assurance Required for Peace Process: MPs

Almost 300 Dead, Over 550 Injured During Taliban Attack on Kunduz

MOSCOW – Nearly 300 people died and over 550 were injured in two weeks as a result of the attacks in the Afghan city of Kunduz, the UN said in a statement.

The UNAMA pointed out that the “vast majority” of the casualties were due to fighting on the ground and could not be attributed exclusively to one party in the conflict.

According to the report, 289 people died in Kunduz.

Wolesi Jirga Urges Insight into Nabil’s Resignation

MP Abdul Rahim Aynoli says it has to be clarified whether Nabil resigned based on President Ashraf Ghani’s demand.

Talking to the senators on Saturday, Aynoli said he has information that chief of Pakistan’s spy agency Inter-Services Intelligence (ISI) has information that chief of Pakistan’s spy agency Inter-Services Intelligence (ISI) had made the demand of the removal of Nabil from NSF during a visit to Kabul.

Aynoli added that Rahmatullah Nabil received vote of confidence from parliament to head the NDS but it appears that parliament’s vote is not respected.

VP Jihal Abdal Zahir Qadir also raised concerns about Nabil’s resignation during the sessions. He said that the cause of Nabil’s resignation must be questioned.

Govt. Rejects that Officials Support Daesh: Ghoranz

KABUL – Afghanistan’s National Council spokesman Zabih Ghorzang on Saturday rejected the Tawar news agency claim that two top Afghan officials are supporting Daesh in reaching the borders of Tajikistan and Turkmenistan borders.

Tawar the Russia News Agency has published a report over Afghanistan that the two top Afghan officials are supporting Daesh in reaching the borders of Tajikistan and Turkmenistan borders.

Ministry of Defense deputy spokesman Gen. Sabri said, “we strongly reject the report published by Tawar News agency.”

Most Nations will be Happy with Climate Pact: Afghan Envoy

KABUL – Most Afghan delegates at the Paris talks believe “overwhelming majority” of the delegates are ready for a final draft of a global climate agreement.

Zaher said that he is “almost confident” that the final draft is going to be formally adopted late Saturday.

He said that he has been to such conferences for many years and he “hadn’t seen a building like today, electric in the air.”

He further added that climate change is the “overriding agenda” adding “our glaciers are melting, our weather patterns are changing, we have a direct effect on our agriculture.”

Zaher stressed the Paris agreement would allow “emissions in 2030, below the 2030 business-as-usual scenario.”

But he also said that “we have to act as a least-developed country – play our role to help ourselves.”
