KABUL - The US special envoy Zalmay Khalilzad on Monday said that "tragically, the war continues" in Afghanistan and "the need for a political settlement, reduction in violence, and a ceasefire remain urgent.

"Given how much is at stake, it is imperative that there are no delays in resumption of talks, and they must resume on Jan 5 as agreed," Khalilzad said in a statement.

His remarks come as the Afghan government and the Taliban and their representatives in Doha mutually agreed on a three-week break starting Monday. The two sides have been engaged in Doha, Qatar, since September and paused the process for internal consultations ahead of their return to the talks on January 5.

On Monday, Khalilzad visited Pakistan where he held a meeting with the country's Chief of the Army Staff General Qamar Javed Bajwa. He was accompanied by US and NATO forces commander in Afghanistan, Gen. Scott Miller.

The Pakistani military said in a post-meeting statement that the two sides discussed regional security and the ongoing Afghan reintegration process.

Pakistan’s Exports to Afghanistan Suspended

PESHAWAR – Pakistan’s exports to Afghanistan through Torkham have been suspended following a strike by customs clearing agents. The clearing agents went on strike on Monday to protest what they called lack of facilitation at the crossing and the authorities’ refusal to meet their demands.

The strike would continue until the government met their demands, said Totkham Customs Clearing Agents’ president Hazrat Umar.

He complained they had long been demanding the inclusion of the opening of Durand Line for south trade with Afghanistan.

Other demands of the strikers are the abolition of the scanning condition for all types of exports and a separate place for the examination of goods.

He also called for a step to the clearance of goods except fresh food items after 5pm and exempting clearing agents’ vehicles from security checks.

Umar blamed the government for failing to honour its promises of providing border internet and electricity services at the time of goods clearance.

According to Umar, the strike also affected the import of fresh fruits and other items from Afghanistan. Hundreds of loaded vehicles remained stranded on both sides of the crossing. Pakistan’s main exports to Afghanistan via Torkham are rice, coffee, cotton, and rice, and rice products.
