A reliable economic system would help in political stability and continuity of society. The country cannot keep on relying on the external support indefinitely. It has to stand on its own and face its economic challenges itself. Most importantly, it needs to let the businesses grow support them and enable them to bear roots. Both national and international institutions can assist the country in its journey towards a stable economic system.

However, the fact is the attention given to the economic output of the country is really insufficient. Moreover, the different institutions that can play a great role in this regard have been victimized by insecurity, corruption and mismanagement. The effect of strong social economy policy in the country is not predictable and needs to be developed. The reliability on economic system would help in political stability and continuity of society.
