Afghan Youth: Capital Human Resource Left Neglected

The decade long conflict and war in Afghanistan pinged everything, ranging from intra-structural to socio-political framework. Bloody conflicts rending countries peacefully physically violated and socially stagnant. Frequently, we find handicapped people, sitting at the corner of streets, asking for financial help. Every passerby is this disappointing picture of neglected sector of society, battered by negligence and atrocities. These unfortunate children are one way or the other affect the catastrophic impact on youth’s consciousness constantly reining their talent and intellectual capability.

With exception to handicapped children, people and women are also dragged to begging as witnessed on the streets of Kabul. Respecting the human dignity, achieving the goals, children of principal families, drag them with them to further their meticulous disease. The wide incidence increasing the grave human violation where children are subjected to ill-treatment under the very nose of concerned departments.

Afghanistan has one of the world’s fastest-growing populations with an annual increase of 3.1%, according to a 2012 UN Population Fund report. Roughly 68% of Afghanistan’s 30 million citizens are under 25, with those aged 15-24 accounting for 44% of the total population, according to an Afghan Children’s Rights Report. There are around 11m of young people aged 15 and above and adults who washed out formal education or could not complete their schooling to obtain a certificate. It is a social debt to be compensated to those who were denied education, get their potential robbed. Afghanistan suffers acute poverty as one of the greatest problems. The United Nations Development Programme (UNDP) considers one half of Afghanistan’s estimated 30 million people live on less than 1 USD a day. Poverty might serve one of the reason pushing巨大 number of people to desert their village and go to search for better life in the urban center.

The government has been taking several measures to achieve economic growth, but it seems the policy fails to eradicate the poverty. Many people in the country face the future of that hope and poverty. The lack of knowledge, the misfortune data pertaining the underprivileged, depicts the degree of interest of government, drug and alcohol addiction, and the criminal activities. Afghanistan is full of social and moral problems. The Afghan policy is not effective in dealing with the problem of drug and alcohol addiction, the criminal activities, and the problems of education and health.

It is a great challenge for the Afghan government to break the cycle of poverty. The government has been taking several measures to achieve economic growth, but it seems the policy fails to eradicate the poverty.
