Outlook Horoscope

Aries (Mar. 22-Apr.20)

if you happen to meet new people today, Aries, be careful. Some folks appear interesting because they're bold or dangerous. Perhaps they do things you'd never dream of doing. This may seem interesting, but it can lead to trouble and hurt you if you aren't careful. Stick to your usual standards and ethics.

Taurus (Apr.21-May 20)

Watch out for the green-eyed monster today, Taurus. It can rear up before you can say "jealousy." Most situations that cause these feelings are born out of insecurity. If you aren't secure in your job, relationship, or family, and feel threatened by someone, it's time to take a look at the cause. Why you don't feel as solid as you could?

Gemini (May 21-June 20)

You're known to be kindhearted. However, being taken advantage of can happen as a result. It's important for you to trust your instincts to prevent this from happening. If what you hear doesn't match your feelings, trust your feelings. If you think you're being used, try to move past it. It would be a real shame if resentment permanently squelched your giving nature.

Cancer (June 21-July 20)

Your nature is intense, Cancer. You probably feel things deeply and spend a lot of time lost in thought. Yet, too much intensity can take a toll on your health and well-being. It might be time to go out and enjoy yourself. Get up from the chair and take a walk. Meet someone for lunch or do a little shopping or yoga. Find something active to do to break the monotony of your routine.

Leo (July 21-Aug. 21)

Feed your mind today, Leo. While you no doubt enjoy being active and social, you get bored fairly quickly, too. You need a constant supply of intriguing, fresh material in order to feel your best. Explore an interesting subject or learn a new hobby. Stimulate your mind and your body will become more energetic. Use the Internet if you can't get away.

Virgo (Aug. 22-Sep 22)

If you think you have to prove that you have something valuable to offer, Virgo, consider this carefully. You're naturally friendly and can get along with almost anyone. This may already be your strength. You have something great to bring to a crowd. Consider being yourself and not trying so hard to feel a part of things. Look at your qualities and you will prove your worth to yourself.

Libra (Sep 23-Oct. 22)

Consider putting your problem-solving skills to work today, Libra. You have a real flair for investigating situations and figuring out what happened. If something comes your way that seems mysterious, take the bull by the horns and get to the truth. If you're baffled, use the process of elimination to narrow things down.

Scorpio (Oct.23-Nov.22)

Scorpio, don't be fooled by others who aren't straight with you. If you don't know the person well, trust your instincts. You tend to care for others, so it can be easy for you to feel sorry for someone and be inclined to help. Make sure that the person you help really deserves it and is telling you the whole story. Taking this extra time can save you problems later.

Sagittarius (Nov.23-Dec.20)

It could be easy to get carried away today, Sagittarius. You might get caught up in some excitement or base your decisions on another's word. You need to use your head on a day like this. Double-check everything and moderate your activities. Keep your limitations in mind. There's nothing that says you can't do whatever it is that catches your eye. Just use caution and stay safe.

Capricorn (Dec.21-Jan19)

The energy that you feel today may have you so jittery that others don't know what to do with you, Capricorn. The day's influences can bring a boost. You'd be wise to plan things to do to expend it all. Get busy with physical chores at work or home. Pull things out and organize, move furniture around, whatever it takes. It's better to be productive than drive everyone crazy.

Aquarius (Jan 20-Feb.18)

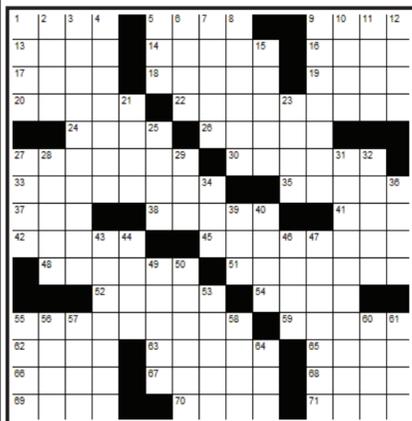

Venturing into something new and different may be what you need, Aquarius. You have a very solid, practical side to your personality, but the need for excitement and adventure is likely to be just as strong. If you've had your nose to the grindstone recently, take some time off for fun. Visit a friend or, better yet, drive to a place you haven't been to and explore.

Pisces (Feb.19-Mar.20)

You may want to learn about something today, Pisces. At work and home there's a set schedule of what you must tend to and when. On your own time, you're free to research anything your heart desires. Intellectual growth is something you enjoy, so why not spend time online or in the library finding out more about your favorite things? Whether cooking or genealogy, you will find something new.
