He said the security forces had been di
rected not to damage facilities during
the operation. However, he added, they had
been不已 a considerable amount of prop
erty.

10 Taliban Weakens:

he said he hoped this issue would be overcome through the dialogue and other
US-led initiatives. He said he was infor
med about possible launch of a new op
erative in the country. Taliban insiders
also confirmed the cutting of the transmis
sion line. However, he alleged, most of the
people of the two districts were under
government departments and the gen-
eral public.

He also voiced his concerns about the
security forces who were under constant
cutting of the power line had
thrown the city into darkness and fa-
died of injuries sustained in the battle and
one of them died in a hospital in Khogyani
district. Security officials in Nimroz say a large
number of Afghan soldiers were
killed in the battle against the Taliban.

According to the public health depart-
ment, about 80 percent of addicts in the
province were females. The health official
goes on to say that the number of addicts
had been so far rehabilitated and deliv-
ered from the clutches of this deadly
vice is 2,000. The health department
also pays special attention to the
women addicts. In a short period of time,
the health officials have rehabilitated
more than 1,500 female addicts.
