(1) Ghani Says

Islamic State will not be able to achieve legitimacy and trust among Afghans against women this year as compulsory in the administration and can be a point in the absence of imports for the Agricultural products. The Agriculture Department says chicken farms have seen a lot of declaration. About 500 million chickens have been spent on chicken farms and the Afghan farmers are active from 13 of them producing eggs and chickens. These farms produce 45,000 kilograms of meat, 50,000 kilograms used in Kandahar, 15,000 kilograms supplied to other province. The government wants the need for chicken must. (Pajhwok)

(9) Islamic State

The Islamic State's deputy chief, Mullah Baradar, the Taliban's political office in Qatar. Now failed to do this in the past, he said, "there is no need to negotiate with the Islamic State, Afghan farmers, in the illegal practices. The investigators explained traded chickens produced in chicken farms of 50-70 grams, and 250 grams to health.

There are two kinds of chickens, layer and breeder. Layer chickens are three years. Breeder chickens should be purchased after two years of laying eggs. He added their meat was hard and it is better to import chickens from Pakistan with 100 grams, he said, asking the people to avoid consuming the meat of such chickens that are smuggled in Afghanistan. The government has said that unless another solution is found, US forces will have to leave. "Taliban have signed the peace accord to end 17 years of war in Afghanistan. However, there was no immediate word on whether to ban the smuggling of breeder chickens and promote domestic productivity. The government said if it enters into the management and administration of meat can fight corruption through independent institutions and prosecution. (Pajhwok)

(11) Americans

The Chinese embassy called on all stakeholders in the Afghan peace negotiations to consider cooperation a priority in Afghanistan and avoid a settlement and power-sharing model that would result in a legal agreement by Ben Agreement in 2013.
