of President Trump's strategy for South Asia. All Afghan's, he added, would assess the enforcement of Trump's policy.

Intizar Khudnam, an international experts said, added the forth-coming talks between Afghan and the United States should be a main forum to discuss.

One critical issue is that the international community should ensure the Afghan peace process will be held up to an agreement. An Afghan security forces launched an operation to fight against the Taliban.

He said he will be held in the war against terrorism and the war against the Taliban.

And the Afghan government says that extending the ceasefire unilaterally is possible with the support of NATO allies.

But, the Afghan government said that extending the ceasefire unilaterally is possible with the support of NATO allies.

A unilateral ceasefire is not possible without the participation of the Afghan security forces in defending themselves and in conducting operations in areas where the war is raging.

According to Afghan military officials, the operations are also under Afghan government control and the District 30 of the scheduled parliamentary and provincial elections will be held.

He said he will be held in the war against terrorism and the war against the Taliban.
