**Delhi Reaffirms Support for Kabul in War on Terrorism**

During the meeting, Modi conveyed In- dia’s firm support for the war-stricken country in “resolutely and effectively” combating the challenge of terrorism. He also underlined the recent spate of attacks in Kabul and other parts of Af- ghanistan, and expressed India’s sincerity and confidence on loss of hundreds of in- nocent lives.

**Concerns Raised over Political Rift on Protesters’ Demands**

The truck bomb explosion in Kabul was followed by a demonstration in the city whether controlled or contested by the Taliban. That the terrorist situation has worsened. If you can’t have a group of people in Kabul safely, you can’t have any business,” said Petre Bergan, vice-presi- dent of the New America Foundation. During a panel discussion, he said: “About a third of the population is in areas that are under control or contested by the Taliban. That is 10 mil- lion people. This is a crisis in Afghanistan.”

**Regarding ISIS Suffers Casualties in Kunduz**

KUNDUZ - The Ministry of Defense (MoD) has informed re- garding the casualties in the recent attacks on key districts in Kunduz province that at least 500 Taliban militants were killed during the ground operations and air strikes by the Afghan National Army (ANA) forces.

The MoD added that the operations were conducted in a series of attacks to support the ANA forces in the vicinity of Imam Sahib dis- trict, a relatively volatile district in Kunduz province.

This is the first time reports have emerged regarding the casualties of the ISIS loyalists in northern Kunduz province.

The ISIS militants are mostly ac- tive in eastern Nangarhar prov- ince from where they initially started their operations although they also operate in areas either controlled or contested by the Taliban. The insurgents belonging to the Tali- ban and ISIS have started their operations since the US-led military campaign in Afghanistan.

**500 Taliban Militants Killed in Kunduz Clashes**

“Iman Sahib is a strategic district on the country level and the army had the plan to set up a military camp there. Their main aim was to capture the district.” While denying Danesh (Amin on P4, in personal communications)

**Police CIMIC In ‘Friendly Fire’ Art Strike**

KANDAHAR - A US air strike killed at least two Afghan police- men and wounded four others in Hildan, officials said Saturday. It is apparently the first “friendly fire” incident since American Marines returned to the southern province in April.

Afghan border police were on a patrol in the volatile district of Nad Ali when they came under fire during a military operation around midnight Friday.

We would like to express deepest condolences to the fami- lies of the AIP members affected by the unfortunate incident.

The policemen were patrolling close to the Taliban base when they came under attack, provin- cial spokesman Omam Zebak said Afghan.

Two police officers were killed and four others wounded. A number of Taliban were also killed in the air strike,” Zebak said.

Hilman was for years the con- trol of the US and British mil- itary intervention in Afghanistan – only for it to slip deeper into a quagmire of instability. The Taliban effectively control or claim the territory of 30 out of 40 districts in 14 dis- tricts, highlighted by a huge opium harvest that helps fund the ene- macy.

Last year the fighting forced thousands of people to flee their homes, mostly seeking refuge in provincial capital Lashkar Gah, and the city practically bypassed by the Taliban.

US Marines returned to Hildan in April, after NATO’s combat mission ended in 2014, to help embattled Afghan security forces beat back the resurgent Taliban.

The deployment of some 300 Marines to the poppy-growing province came as the Trump ad- ministration is preparing a new strategy in Afghanistan.

The Pentagon has told the White House to send thousands more troops to the war- torn country to break the deadlock.
