KABUL - The National and Educational Exhibition -- a direct link creating an opportunity for direct communication between the human resource and prospective employers -- is set to begin today (Monday).

Spogmai Sayam, an official of the Future Plan, told Pajhwok Afghan News the three-day exhibition would be the initiative of her office and the Ministry of Social Affairs, Labour, Martyrs and Disabled (MoSLD).

She said the development of a direct connection between job-seekers and employers, creation of an opportunity for discussion between educational institutes and students and an exchange of information between different groups were among the objectives behind the event.

The organisers called the launch of the exhibition a crucial step, saying the visitors could get information regarding different universities, academic curricula and fee discount. In addition, it will help educational institutes attract more students (Pajhwok)
