People’s Worries During the Cold Weather

The issue of the winter problems of people has always been mentioned and discussed every year before the coming of the season. It is unfortunate that the government has not been able to respond to the needs of the people of Afghanistan. Since Afghanistan is a country, dependent awareness of the possible situation and warnings given over the past few years. Of course, it should not be forgotten that some other factors, regardless of official policies, have contributed to the increase in the number of incidents required by the people in the winter.

While, this winter does not have the house seriously, the signs and symptoms have increased. This year, in particular, clear snow has originated in the form of a snow in the rate of prices in Afghanistan.

In fact, winter in Afghanistan is one of the reasons why the high costs of the season, the expenditures of the people, and the cost of the goods. Of course, there are obvious, and the system of supply and demand has not taken any serious measures in this regard.

One of the other factors of inflation is the supply pressure; that is, if the supply of goods is reduced in a country, then the price of goods will increase. Afghanistan is a country that mostly is served by imports, on the main import factor that if imports in Afghanistan decline in a particular season, the supply pressure will increase. On the other hand, another reason for winter inflation in Afghanistan has been its inflation, which has increased in recent years, and has led to an increase in the cost of goods. The other way, the government has not taken any serious measures in this regard.

The issue of the economic evaluation of Afghanistan is based on the market economy. The government has the least interference in this regard, but it has some problems. One of the problems is the inflation, which has increased in recent years. Inflation has led to an increase in the cost of goods. The other way, the government has not taken any serious measures in this regard.

This winter, the millions of people living below the poverty line, the citizens of the country, who mostly are served by imports, have been suffering for years from poverty, war, unemployment, and deprivation. People, who have been suffering for years from poverty, war, unemployment, and deprivation, the government cannot provide all the necessary services for them. People, who have been suffering for years from poverty, war, unemployment, and deprivation, are also responding because of the impossibility of relevant authorities.

The people of Afghanistan are people who are at odds with their own life in many cases. In the countries where they live, they have an unpleasant, in spite of the comments made by their authorities. They are deprived of the right to a decent and dignified life, deprived of the right to education and work, deprived of the right to health care and social security, deprived of the right to vote and be elected, deprived of the right to freedom of speech and communication, deprived of the right to freedom of belief, deprived of the right to freedom of movement, deprived of the right to freedom of association and union, deprived of the right to freedom of assembly, deprived of the right to property, deprived of the right to acquire and disseminate information, deprived of the right to seek and receive asylum.

The government has also not paid attention to these matters. While the winter has not hit the house seriously, the signs and symptoms have increased. This year, in particular, clear snow has originated in the form of a snow in the rate of prices in Afghanistan.
