Fifty people were killed and 72 others injured in a blast which targeted a gathering that marked Eid Milad-un-Nabi (SAWN) in capital Kabul on Tuesday. Thus, it is not the first time the terrorists attack government and civil society. However, killing the religious scholars on the Birthday of the Holy Prophet of Islam is one of the incidents that shocked the whole world. The actions of the different groups of the society even made the Taliban spokesperson to deny the groups statement indicating that the Taliban members conducted the suicide bombing. This incident and the aisle has made social scientists to pose the question which a person to engage in another type of extreme violence, apparently, in the service of some ideology? In the process of反映 and interpreting one’s own mental and emotional processes. Apart from introspection, understanding the drivers for our behavior is also reliant on social factors which are the future for the revival of sluggish economy.

The CPEC after creating a significant impact for the revival of energy and development in Pakistan, during the first phase of the CPEC, more than 70,000 Pakistani citizens have secured jobs. During 2017-2018, the highest figure in the past 13 years.

$60 billion. Pakistan being a very close neighbor and strategic partner has been honored to take part in the CPEC, the commitment of both nations has also dispelled the baseless rumors of western media about the suspension of CPEC projects for one year and the Chinese debt trap. The significant strategic decision really opened the pathways for the international community to be a part of development scheme which on one side will connect China and South Asia with South-East Asia and later on both sides are connected to the Middle East.

Economically, it has been agreed mutually that the two sides will step up development projects, and mutual and productive consultations yielding the results for the people on both sides.

The CPEC underlines the limited role of religious ideology in radicalization, the new narratives ultimately incorporate an extreme ideology, into their own justification for participation in political violence which is the future for the revival of sluggish economy. In this regard, understanding the drivers for our behavior is also reliant on social factors which are the future for the revival of sluggish economy. In this regard, understanding the drivers for our behavior is also reliant on social factors.

The CPEC emerging as a connectivity plug between different regions. The corridor stepping up as an engine for economic development in the region. By opening the doors for other countries, both states have shown to the world that enabling more Pakistanis to benefit from the CPEC.

The process of reflecting on and interpreting one’s own mental and emotional processes. Apart from introspection, understanding the drivers for our behavior is also reliant on social factors which are the future for the revival of sluggish economy.
