What is Foreign Policy?

Foreign policy is the management of external relations, national interests and activities at international arenas backed by domestic policies. Foreign policy involves goals, strategies, methods, guidelines, discretionary understandings and agreements and so on by which national governments conduct international relations with each other and with international organizations and non-governmental actors. All national governments by their very fact of their international existence, are therefore compelled to engage in foreign policy directed at foreign governments and other international actors. Governments want to influence the goals and actions of other actors and can completely influence them because they exist and operate by their end servitude.

In the other words, no country is self-sufficient and all relations are, somehow, interdependent in international system. In recent past, due to the growing interdependencies, there has been debate about global monetary governance. This means, foreign policy makers should set right goals and measures to guide to government, decisions and actions with regard to external affairs, particularly relations with foreign countries managing foreign relations calls for carefully considered plans of action that are adapted to foreign interests in the complicated world system. Governments spending positions, chief, execution officer, foreign ministers, defense ministers, finance ministers, along with their closest advisers are usually the key policymakers. Policy makers involves a means end way at thinking about goals and actions. It is very important in a country’s foreign policy system to be able to secure the growth of the goals and as a result securing the growth of the goals and as a result making the goals of foreign policy and weak players.

In the other words, a country’s foreign policy system needs to be able to secure the growth of the goals and as a result making the goals of foreign policy and weak players.

The key Trend the Afghan Government Should consider incentives for deploying the PPP model in public service delivery. It shall sustain and advance projects through incentives. They can range from access to skilled resources and government, infrastructure and services, and products can be accomplished through public-private partnerships, where the government makes the minimum number of services, products and or care, the private sector partner usually makes a substantial financial commitment, while donors and risk management, and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management, and will also address its ability and poor fiscal management.

Paradoxes of Peace Talks in Afghanistan

Abbas Azimi

The 1979 Russian invasion of Afghanistan inflicted political instability and crises on the country. People were internally displaced and large number fled the country. The fall of the Soviet Union in 1989 was coupled with civil wars in Afghanistan and it paved the way for the Islamic Emirate to fall. After nearly four decades, Afghanistan still suffers from armed conflict mainly spearheaded by the Taliban. The 1980s civil wars, which ended in 1992, and fall of the Soviet invasion of the 11th July 1989, in Afghanistan was needed to be analyzed when we evaluate peace talks between the National Unity Government (NUG) and the Taliban. This article highlights the paradoxes of peace talks with the Taliban. In the meantime, the country’s geography, especially its landlocked location, mineral resources and more importantly the weak players, has been the battle ground for great games.
