Moderate Approach should be Valued

H
uman beings, in their quest to understand the world and different phenomena in it, have gained knowledge and developed ideologies. These ideologies, however, have not been without their share of drawbacks and conflicts. Some conflict is inevitable as different ideologies cannot coexist peacefully. However, this conflict should be handled in a way that doesn’t create more harm.

In the Name of God, the Most Merciful, the Most Kind

To avoid this level of warming, the U.S. has set a target of reducing its emissions by 2020. The Climate Change Council (CCC) has recommended that the government must take more ambitious targets to ensure that emissions peak at least five years earlier than 2020. The CCC has also advised that the government should consider introducing policies to reduce emissions in the short term, such as increasing the price of carbon dioxide, to encourage industries to switch to cleaner technologies.

In summary, the climate crisis is a complex and multifaceted issue that requires a comprehensive approach to address the root causes of climate change. It is imperative that governments, NGOs, and individuals work together to protect the environment and ensure a sustainable future for generations to come.
